

EXCELSIOR

Clear Line

The stylish, flexible & durable framed system

The Clear Line system is a welcome addition to the Excelsior cubicle range and as with all our products it's already a popular choice for installation around the UK.

Perfect for areas of high volume usage such as schools, leisure centres and arenas, the Clear Line cubicle system can boast a robust build quality, proven to meet everyday demands.

Site ready sub assemblies allow for ease of installation on any site significantly reducing installation time and cost.

Partitions & doors can be manufactured and supplied 20mm thick using high pressure laminate faced V313 moisture resistant chipboard, or for increased resistance to vandalism and moisture (especially ideal for shower areas), in 13mm compact grade laminate.

Hardware available from a selection of powder coated and metallic finishes as standard.

Bespoke colours and finishes are available on request.

Panel and door colours can be selected from a large range of preferred laminate manufacturers.

- The Clear Line installation has a premium look and feel reflecting the highest quality build specification.
- Cubicles are flexible to suit any floor layout.
- Simple to install and maintain.
- Unique outward opening mechanism for disabled access.
- Robust and durable.
- Site ready sub-assemblies; hinges, leg supports, latches and channel fixings pre-assembled to significantly reduce installation time and cost.
- Wide range of metallic and ppc finishes offered to compliment laminate colours.
